The prices of contact lenses will vary depending on the type of contacts that your doctor prescribes.

After your fitting and evaluation are completed, your supply contact lenses must be paid in full before being dispensed. _____ (initial here)

U.S. Fairness to Contact Lens Consumers Act of 2004: As stated by this federal law, you will be given a copy of your contact lens prescription once the prescription is finalized by the examining doctor. **Receiving a trial lens IS NOT indicative of a finalized prescription.** A finalized prescription is determined at the follow up appointment after you have been wearing the trial lenses for a specified period of time with no ocular health complications. If there is no change to your prescription, it may be finalized at the time of the yearly exam if the doctor approves.

I have read and understand the above information and agree to the terms set forth in this contract and have had all my questions answered.
